This is the Discussion Forum page on which the user can filter questions based on specific industry and specific share id. They can answer the question by clicking on reply which will take them to a thread of replies to the question.
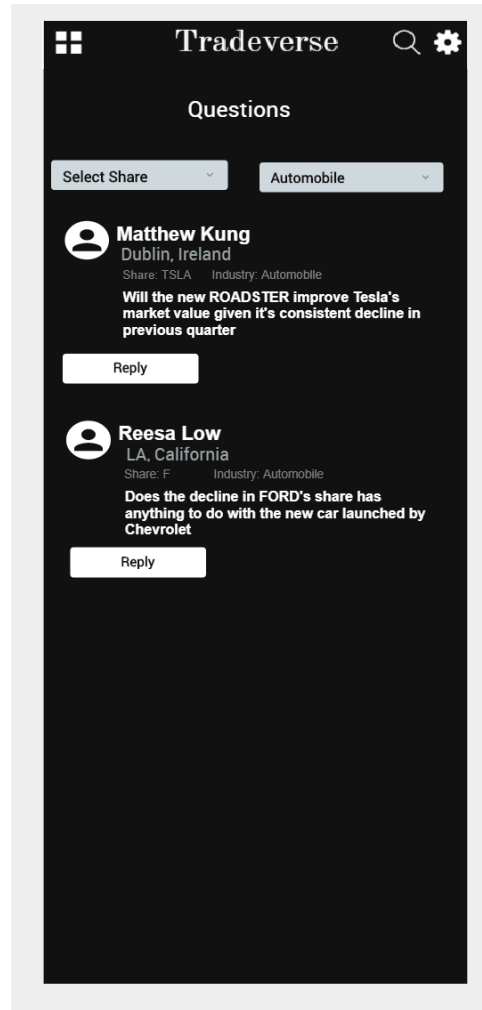

This is the Company or Share Description Page which will show all the company statistics over a period and share price in real time. It also summarizes the user's current position in terms of that share. The top right corner links to the company and industry specific news and also has a button that leads to the trading window.
